

The screenshot shows a Mural board titled "Empathy Map". The board content is as follows:

- Gain:** To develop machine learning model that predict the onset of CKD within the next 6 and 12 months
- Central Circle:** Early detection of chronic kidney disease using machine learning
- Pain:** Chronic kidney disease (CKD) represents a heavy burden on the healthcare system because of the increasing number of patients, high risk of progression to end-stage renal disease, and poor prognosis of morbidity and mortality

Arrows indicate a flow from Gain to the central circle, and from the central circle to Pain. The interface includes a top toolbar with various collaboration tools, a left sidebar with navigation icons, and a bottom status bar with system icons and a clock showing 10:26 AM on 9/14/2022.
